

WARNING- PLEASE READ - IMPORTANT

Damaged mattresses should not be used unless repaired. Improper inspection or inmate/patient abuse or misuse of this mattress could lead to serious injury or death. Derby Industries suggests careful inspection of its Sealed Seam Mattress prior to each use. Inspection should include looking for inmate damage (violation of mattress cover material-easily detected by tears or rips exposing inner fiber), and checking integrity of sealed seams. NOTE: Patch kits are available for temporary repairs. Damaged mattresses should be disposed of.
